# II° DENTAL TECH *meeting*

5 FEBRUARY 2025

DUBAI - CONRAD HOTEL

# II° DENTAL TECH *meeting*

During AEEDC 2025 in Dubai, Dental Tech will organize its second Dental Tech Meeting at Conrad Hotel.

It will be an opportunity to meet our dealers, their costumers and present our products.

## *Program*

| | |
|---|---|
| Registration | 6:45 PM - 7:15 PM |
| Welcome and Introduction | 7:15 PM - 7:30 PM |
| Speaker: Dr. Redemagni M. | 7:30 PM - 8:15 PM |
| Speaker: Dr. Rosato A. | 8:30 PM - 9:15 PM |
| Attendance certificate delivery | 9:15 PM - 9.30 PM |
| Buffet and Greetings | 9:30 PM - 10:30 PM |

DENTALTECH

II° DENTAL TECH meeting

# Session 1

Speaker
Dr. Marco Redemagni

7:30 PM - 8:15 PM

## "Navigating prosthetic design for successful esthetic results"

Achieving aesthetics with implants is a challenging and demanding procedure.
To create implant restorations with harmonious gingival contour that emulate nature is a fusion of science and art. Understanding the biologic and physiologic limitations of the soft and hard tissues, together with the provisional restoration ideal shape, will facilitate predictability in simple to complex esthetic situations.
The aesthetic success of a prosthesis on implants is judged almost exclusively by its imperceptible integration with the adjacent elements and by its appearance as natural as possible. To achieve these objectives, a correct treatment planning must be carried out, taking into consideration all the decisive parameters to obtain an ideal result.
During the lecture the key determinant factors for an optimal and lasting aesthetic solution of immediate load cases will be highlighted, with a focus on the FTK conical implant line: from the study of the case to the surgical phase, with particular attention to the management of the prosthetic emergence profile through the conditioning of the soft tissues, and its ideal occlusal plan, up to the realization of the provisional and the definitive restoration according to what are the most current orientations of the scientific literature.

II° DENTAL TECH meeting

# Session 2

Speaker
Dr. Andrea Rosato

8:30 PM - 9:15 PM

## "Surgical Management of Bimaxillary Atrophy for Double Immediate Loading Full-Arch Rehabilitation"

During the report, a complete case of immediate loading implant rehabilitation in a patient with bimaxillary atrophy with bone and tissue augmentation will be presented.
To solve the case, Dental Tech FTZ Implant line, pure bone apatite spongy granule biomaterial (DT-BGA) and collagen membrane (DT-CM) were used.
